

CD-Q SERIES WASTE & RECYCLABLE RECEPTACLES
1 TO 4 STREAMS CONFIGURATION

These rugged CD-Q receptacle series is made of 100% recycled plastic materials. The efficient and eco-friendly design is suitable for fancy medium traffic areas. The CD-Q indoor waste and recycling receptacle series is offered from 1 to 4 streams, to match your specific needs. The ergonomic design permits each compartment to have its own door to facilitate the bin liner manipulation. The CD-Q series is available with an optional backboard.

Features :

- Black colour standard, cedar, green, blue or gray colour available on special request.
- Recycled plastic bin liner at each compartment, 75 liters – 20 US gallons capacity.
- 23 cm – 9 in hole on top.
- 8 ½" x 11" labels on the front doors or on the backboard if so equipped.
- Labels choice: « WASTE », « RECYCLABLE », « CANS-BOTTLES », « ORGANICS », « PAPERS ».
- Easily movable, unit is mounted on heavy duty casters.
- Stainless steel hardware.
- Bag size: 30 in x 38 in.
